

Tobacco Control Trainings

For the last decade, The BACCHUS Network™ has dedicated a significant portion of its attention to campus tobacco control. Now you have the opportunity to learn in-depth strategies for tackling this vital health issue. Our staff will provide you with the tools, knowledge and strategies needed to lead effective tobacco control programs on campus.

Tobacco Cessation Program Training

Tobacco cessation for young adults is a challenging piece of the campus tobacco control puzzle. BACCHUS staff members have expertise in providing cessation efforts on campus. A full-day training includes the top 10 list of campus cessation efforts including: assessment; empathy for addiction; Stages of Change; working with health and counseling centers; medications; cessation groups; technology; targeted promotion; events; staff involvement; and national resources. Participants will leave with strategies for implementing a comprehensive cessation program on campus.

Campus Tobacco Policy Development Training

This two-day training will utilize the expertise of BACCHUS staff members to provide you with tobacco policy development specifics. The training will develop the participants' ability to do the following: assess the needs of campus, build a task force, build capacity, develop the right policy, educate on tobacco and policy, gain support from key stakeholders, implementation and compliance of a newly developed policy.

Campus Tobacco Policy Strategic Planning

Are you having a hard time moving from tobacco policy development theory to action? Have you already been through the “Campus Tobacco Policy Development Training”? Does your campus tobacco task force feel frustrated that they cannot get buy-in to pass a tobacco free policy? Are there other campuses in your state that are experiencing the same frustration? With the assistance of the BACCHUS staff you will walk away from this full-day training with a three-year strategic plan that is individualized for your campus. The BACCHUS staff will go over the importance of strategic planning, provide model strategic plans to work from, provide individualized technical assistance to develop a strategic plan that will best work for all campuses in attendance.

Tobacco Control Technical Assistance

Are you unsure of where to take your tobacco control efforts? Do you need help developing goals or a work plan? Do you simply need some help thinking through your next steps? BACCHUS professional staff are available to provide one-on-one technical assistance.

Booking a Training / Technical Assistance

Fees for each of the options listed above vary. Please contact Ann Quinn-Zobeck, Director of Education and Training, to discuss your particular needs and budget. She may be reached via email at: ann@bacchusnetwork.org or via phone at: 303-871-0901.
